

ENTRIES ARE COMING IN FOR THE KESWICK SHOW

Officials of Big Event Which Takes Place in Albemarle County on May 15th Have Attractive Program—The List of Officials.

Entries are pouring in for the fourth annual Keswick Hunt Club horse show, which will be held at the horse show grounds at Keswick, Va., on Wednesday, May 15th. Reports from Albemarle county indicate that the coming exhibition will be even bigger and better than ever.

The officials have completed an attractive program for the day's events. It includes twenty-one classes. The judging will begin at 10 o'clock in the morning. Entries close with the management on Wednesday, May 8th. Following is a list of the officials: Directors—H. E. Macgruder, John D. Sawyer, J. A. Chisholm, George Mason, W. S. Osborne, Allen Potts, G. H. Houghton, Dr. C. J. Ingersoll, Barclay Hives, L. Pugh, Murray Boocock, E. H. Joseph, Dr. F. L. Thurman, F. M. Handolph, Julian Morris, W. C. Reed, H. S. Horne, W. T. Rankin, A. K. Robinson.

Executive Committee—Julian Morris, manager; B. S. Horn, secretary; F. L. Thurman, Murray Boocock, H. E. Macgruder.

Class 1—Best yearling colt (any breed).
Class 2—Best two-years-old (any breed).
Class 3—Best three-years-old (any breed).

Class 4—Horse suitable to become a hunter, three years old or over, to be shown under saddle.

Class 5—Farmers' class—Horses entered in this class must be suitable for use in harness, under saddle and general farm work and have long tails. To be shown to vehicle first, then unharnessed in the ring and shown under saddle. No entrance fee.

ROADSTERS.
Horses entered in these classes will be judged as horses driven regularly on the road, and by their manners, conformation, speed and style of going. Their pedigrees or records will not be considered.

Class 6—Best pair roadsters. (Mare and gelding may constitute a pair).
Class 7—Best single roadster (mare or gelding).

HORSES IN HARNESS.
All horses entered in these classes must be practically sound for the purposes for which they are shown. They must have good manners. Extreme knee or hock action alone will not be given the preference over true all-round action. In classes for pairs, both

horses must be within the limit of size called for in the classification. Conformation and quality to count 50 per cent; action and style of going, 50 per cent.

Class 8—Best pair harness horses.
Class 9—Best single harness horse.
Class 10—Best roadabout horse.
Class 11—Best ladies' harness horse, manners especially to be considered. Ladies to drive.

SADDLE HORSES.
These classes are to be judged by their quality, manners, paces and conformation. They will be required to back easily, change the lead on the canter without apparent effort, and stand long enough for the rider to dismount and mount without unnecessary trouble.

Class 12—Best Saddle Horse—Gaits required to be shown in this class, walk, trot and canter.
Class 13—Best Gaited Saddle Horse—Horses up to carrying 1500 pounds, over jumps not to exceed 4 1/2 feet.

Class 14—Best Combination Horse—To be shown to vehicle first, then unharnessed in the ring and shown under saddle.
Class 15—Best pony not exceeding 13 1/2 hands, to be ridden by a child under fifteen years of age.

HUNTER AND JUMPING CLASS.
Conformation is to count 50 per cent. In these classes, performance to count 50 per cent, except in class 19, in which conformation will not be considered.

Class 16—Best Hunter that has been regularly and fairly hunted behind the Keswick hounds season 1906-1907.
Class 17—Heavy and Middle Weight Hunters—For horses up to 180 pounds over jumps not to exceed 4 1/2 feet.

Class 18—Light Weight Hunters—For horses up to carrying 1500 pounds, over jumps not to exceed 4 1/2 feet.
Class 19—Free for all—Performance only to count over regulation jumps.

Class 20—Best Ladies' Hunter—Manners especially to be considered. Ladies to ride.

HUNT CLASS.
Class 21—Hunt Clubs—For teams of three hunters (qualified or green) from any organized hunt. To be ridden by members or huntsmen, or whips, of their respective hunts in the hunt colors and to be shown over the regulation jumps. No one to ride more than one horse. Appointments to count 30 per cent; conformation and quality, 20 per cent; performance, 40 per cent.

Class 22—Best pair hunters. (Mare and gelding may constitute a pair).
Class 23—Best single hunter (mare or gelding).

All horses entered in these classes must be practically sound for the purposes for which they are shown. They must have good manners. Extreme knee or hock action alone will not be given the preference over true all-round action. In classes for pairs, both

horses must be within the limit of size called for in the classification. Conformation and quality to count 50 per cent; action and style of going, 50 per cent.

Class 24—Best pair hunters. (Mare and gelding may constitute a pair).
Class 25—Best single hunter (mare or gelding).

All horses entered in these classes must be practically sound for the purposes for which they are shown. They must have good manners. Extreme knee or hock action alone will not be given the preference over true all-round action. In classes for pairs, both

horses must be within the limit of size called for in the classification. Conformation and quality to count 50 per cent; action and style of going, 50 per cent.

Class 26—Best pair hunters. (Mare and gelding may constitute a pair).
Class 27—Best single hunter (mare or gelding).

All horses entered in these classes must be practically sound for the purposes for which they are shown. They must have good manners. Extreme knee or hock action alone will not be given the preference over true all-round action. In classes for pairs, both

horses must be within the limit of size called for in the classification. Conformation and quality to count 50 per cent; action and style of going, 50 per cent.

Class 28—Best pair hunters. (Mare and gelding may constitute a pair).
Class 29—Best single hunter (mare or gelding).

All horses entered in these classes must be practically sound for the purposes for which they are shown. They must have good manners. Extreme knee or hock action alone will not be given the preference over true all-round action. In classes for pairs, both

horses must be within the limit of size called for in the classification. Conformation and quality to count 50 per cent; action and style of going, 50 per cent.

Class 30—Best pair hunters. (Mare and gelding may constitute a pair).
Class 31—Best single hunter (mare or gelding).

All horses entered in these classes must be practically sound for the purposes for which they are shown. They must have good manners. Extreme knee or hock action alone will not be given the preference over true all-round action. In classes for pairs, both

horses must be within the limit of size called for in the classification. Conformation and quality to count 50 per cent; action and style of going, 50 per cent.

Class 32—Best pair hunters. (Mare and gelding may constitute a pair).
Class 33—Best single hunter (mare or gelding).

All horses entered in these classes must be practically sound for the purposes for which they are shown. They must have good manners. Extreme knee or hock action alone will not be given the preference over true all-round action. In classes for pairs, both

horses must be within the limit of size called for in the classification. Conformation and quality to count 50 per cent; action and style of going, 50 per cent.

Class 34—Best pair hunters. (Mare and gelding may constitute a pair).
Class 35—Best single hunter (mare or gelding).

All horses entered in these classes must be practically sound for the purposes for which they are shown. They must have good manners. Extreme knee or hock action alone will not be given the preference over true all-round action. In classes for pairs, both

horses must be within the limit of size called for in the classification. Conformation and quality to count 50 per cent; action and style of going, 50 per cent.

Class 36—Best pair hunters. (Mare and gelding may constitute a pair).
Class 37—Best single hunter (mare or gelding).

All horses entered in these classes must be practically sound for the purposes for which they are shown. They must have good manners. Extreme knee or hock action alone will not be given the preference over true all-round action. In classes for pairs, both

horses must be within the limit of size called for in the classification. Conformation and quality to count 50 per cent; action and style of going, 50 per cent.

Class 38—Best pair hunters. (Mare and gelding may constitute a pair).
Class 39—Best single hunter (mare or gelding).

All horses entered in these classes must be practically sound for the purposes for which they are shown. They must have good manners. Extreme knee or hock action alone will not be given the preference over true all-round action. In classes for pairs, both

horses must be within the limit of size called for in the classification. Conformation and quality to count 50 per cent; action and style of going, 50 per cent.

CHAMPIONS OF EASTERN LEAGUE OF 1885

This is the first team that won renown for the Old Dominion in organized baseball, and because they had things practically their own way in the games at the local grounds, were compelled to disband early in August, as the fans failed to be interested in contests which rarely proved to be any way but one-sided. As an instance of the winning propensities of the team, on the last trip East, it won fourteen out of sixteen games, and on its return here captured twenty-two straight. Toward the end of this notable run of victories it was seen by the owners of the franchise that with the poor support accorded the club by the Richmond people it would be worse than suicidal to continue to hold the franchise, so it was sold to a number of Montreal men. Since that time the Canadian city has been a member of the Eastern League. The teams which composed the league at the time of Richmond's membership were Richmond, Washington, Norfolk, Lancaster, Pa.; Newark, Jersey City, Trenton and Bridgeport, Conn.

The names of the players, reading from left to right: Top row—Pyle, pitcher; Nash, third-base; Greenwood, shortstop; Pop Tate, catcher; Kimber, pitcher. Second row—Higgins, second-base; Glenn, left-field; Simmons, manager; Householder, catcher and right-field; Latham, first-base and captain. Reclining—Johnson, centre-field; Corcoran, catcher and right-field.

COLLEGES BEGIN FOOTBALL WORK

Eastern Universities Have Had Candidates Out for Several Days.

HARVARD'S PLAN FAILS

Crimson Management Only One to Cut the Spring Training System—Elevens All Strong.

With but a single exception every big Eastern university, as well as several Western institutions, has started preliminary football practice for the season of 1907. Although baseball is just making its debut, the teams that will flourish on the gridiron next fall have already had a week or two of practice. Harvard is the only one of the Eastern group that has not put the candidates through a preliminary workout this spring. Captain Parker, of the Harvard eleven, has announced that the Crimson team has abandoned spring practice for good. Furthermore, Harvard has planned to secure the co-operation of other Eastern universities to stop the practice altogether.

Their scheme is doomed to be a failure, however, for all the other universities have already completed their plans, and, in fact, started training for the season which does not open until next September, nearly five months away. The Harvard captain, in announcing that Harvard would do away with spring practice, intimated that spring practice was contrary to true amateurism. There can be no grounds for such belief, for spring practice is made necessary by the new rules.

Last Year Experimental.

The season of 1906, the first under the new code, was simply an experimental season and coaches and captains had no opportunity to put their new players into practice, but they had since the rules were adopted.

It is because of this fact that the large Eastern and Western universities of the country will indulge in it. Yale, Princeton, Cornell, Pennsylvania, and Michigan have already started work, and this week will initiate doubtless materially in lightening the labors of the coaches this fall.

Plans for the 1907 coaching having been made by every member of the Eastern "Big Five." William Knox, of Pittsburgh, the famous half back of last fall, will coach the Yale team; Hal day and Schoeppel will initiate the graduate system at Cornell; Joshua Crane will run things at Harvard, although it is predicted everywhere that he will have a harder time of it than his contemporaries, because of the fact that Harvard will indulge in no spring practice. Roper will probably have charge of the Princeton team, while Pennsylvania's squad will be under the direction of Dr. Torrey, the 1906 coach.

Pennsylvania's men have been working out for the past week or so under the direction of Captain Polwell and Trainer Mike Murphy. Torrey being unable to be present on account of illness. The assistant coaches, "Bull" Smith, W. N. Morice, and Doctors Wharton and Hedges, will take very little part in the preliminary training.

Michigan at Work.

Coach Yost, at Michigan, has been putting the candidates through a stiff course of training. He is on a still hunt after a quarter back for next year's eleven. He has had a number of men going through the paces, and it is said that Wasmund, who played half back on Lafayette two years ago, has been showing up the best. He was ineligible for the 1906 eleven, but did good work at half back for the Scrubs.

Yost's call for candidates at Michigan has awakened the University of Chicago heroes, and about ten days ago Captain De Tray led a squad of ambitious quarters and ends onto Marshall Field for spring practice. Eckersall's term of competition having expired, Captain De Tray will turn his attention, like "Hurricane" Yost, to the development of a quarter back, although it seems a foregone conclusion that Walter Stoffen, right half back last fall, will fit nicely into the shoes of the All-American quarter.

NAVY'S ENTRY HAS AROUSED INTEREST

Secretary Metcalf's Permission to Middies to Row at Poughkeepsie Sets Precedent.

FIRST FOUR-MILE RACE

Cadets Have Gone Only Two Miles Previously—Change in Training System.

Probably no recent development in college rowing is more calculated to please those interested than the news which came from Washington that Secretary of the Navy Metcalf had sanctioned the entry of the Annapolis cadets in the intercollegiate regatta on the Hudson on June 26th. It is a step which means a great deal for college rowing and creates a situation of interest in the outcome of the next intercollegiate regatta. It is not that Annapolis will win the Varsity race necessarily, but that the infusion of new blood into the regatta will stir things up. The virtual proprietorship of Cornell in the race now may come to an end, college men believe.

Annapolis will have not only a Varsity eight in the regatta, but a Varsity four as well. The midshipmen when they began to look about for information as to their procedure in the regatta were eager to enter their second Varsity crew in the Poughkeepsie race, too. They were advised, however, to hold their fire, as the information as to their procedure in the regatta was not yet definite.

Conditions are such that the students will not lose any time from the academy work, which is the all important consideration in forming any conclusion as to their competing in athletic events. They will be able this year to leave the academy after the regular scholastic year has ended and go to Poughkeepsie for a training period of about two weeks and take part in the race without any way affecting their studies.

They will get through with the races in time to get back to Annapolis and have a day or so of rest before the summer cruise begins for such of them as have to go. Altogether the conditions are ideal for the race.

The fact that Annapolis this year will have to enter a four-mile race for the first time in the history of rowing at the institution will necessitate a change in the training scheme followed. The navy men have had one race already this season. That was with Georgetown on the Severn. The midshipmen won rather handsily in the last mile by six lengths. The secret of the huge gain in the last mile is explained by the rough water, those who saw the race say.

Besides this race the Annapolis Varsity crew has the following on its schedule: May 4th, Yale; May 18th, Columbia vs. Navy first, and Annapolis second vs. Georgetown second, and Annapolis third vs. Georgetown Prep; June 1st, Annapolis first vs. Ariel R. C. Seniors, and Annapolis third vs. Ariel Juniors. All these races are at two miles, so that it can be seen that Annapolis will have to do some hard work to get into condition for a four-mile race. It is just possible that some other arrangement on behalf of the first crew may be made with the Ariel R. C. because if that race should be avoided Annapolis would have from May 18th to June 20th approximately to prepare for the four-mile row.

PROGRAM AS ANNOUNCED FOR BIG SHOOT IN MAY

Management Offers Attractive List of Prizes in All Events—Besides Purses, Two Handsome Trophies Will be Given Winners of Handicaps.

The program for the Interstate Association's second Southern Handicap Target Tournament, which will be held on the grounds of the Deep Run Hunt Club in this city May 8 to 19 inclusive, was announced by the management of the tournament, which is presented by the Interstate Association. On the list there appear twelve events for the first day, seven for the second, in which is included the Preliminary Handicap, for which a handsome silver trophy pitcher is offered, and seven for the last day, in which is included the great Southern Handicap match, for which a beautiful engraved silver pocket flask is offered. The two prizes are exclusive of the purses to be competed for in each event.

The first day's shooting is open to amateurs only, manufacturer's agents, paid representatives, etc., being allowed to shoot for the trophy only.

Eligibles for the second and third days of the shoot are classified similarly, and in no matches are handicaps allowed, except in the Preliminary and Southern Handicaps.

Location a Feature.

The mere fact of location is sufficient guarantee of the high character of the entertainment which will be provided. When the North in general had no higher idea of sport than the hunting of deer, bear, turkey, etc., for meat, the Southern chivalry, and notably Virginia, were renowned as fox-hunters, for pure sport, and the enthusiasm was so great that it permeated almost every section of the South, and that spirit has grown and flourished like the green bay tree until its branches overshadow all the land.

The Jamestown Exposition, with its many attractions and very low railroad rates, will be a stimulus to large attendance; in fact, it should be a strong draw card, for about Jamestown century memories of John Smith, the fearless Indian tribes' foe, are still fresh in the minds of the Virginians who found their ancestors in the hardy descendants of Plymouth Rock pioneers. The Jamestown Exposition will be held within two hours' ride from Richmond.

The tournament will be held under the auspices of the Deep Run Hunt Club, of Richmond, one of the best known of its kind in the South. It has a membership of 350, among whom are the leading social, business and professional men of Richmond. The shooting grounds are beautiful and make an ideal place for holding the important event; there is an abundance of shady lawn, and a well appointed club house, with cafe attached. The Deep Run Hunt Club, though not primarily a trap shooting club, possesses all the attributes of one or of anything in this line, its members possessing the esprit du corps necessary for membership in any organization.

Harlem Regatta Plans.

NEW YORK, April 27.—At a meeting of the Regatta Committee of the Harlem Regatta Association it was determined that the plans already formulated and announced for the Decoration Day event would be carried out in full in spite of the failure of the effort to secure financial assistance for the regatta. Word was received from the New York University that they would enter an eight in the junior race.

Columbia-Yale Race Off.

NEW YORK, April 27.—Owing to the fact that the Columbia Varsity crew is to row Harvard on May 14, the management has found it necessary to cancel the Columbia-Yale freshman boat race, which was to be held at New Haven on the same day.
